

SOCIAL MEDIA ALERT!!!!!!

DID YOU KNOW?

While many people use Facebook and Instagram to keep up with family and friends or for entertainment, many are unaware that these social media platforms are now becoming ammunition for insurance companies and investigators to poke holes in your case!!

www.injuredworkerslawfirm.com (804) 755-7755

Change your profile's security settings to "private". Do not post any words, pictures, or videos that could be used against you later to dispute the severity of your injuries or call into question your motives for pursuing a claim. As a good rule of thumb, don't post anything on the internet that you don't want to show up in court!
